Notes: Match ended in a draw despite Home team picking up more games and points. 1 point awarded to each team but league table would suggest home team would go above away team based on games and points.

The Home Team, their Players and their Points all go in the light blue cells

The Visiting Team, their Players and their Points all go in the light orange cells

At the top, in the yellow cells, enter which Division, as well as the Date the match was played

Don't touch the white cells - the Spreadsheet fills them in when working out which team won - as well as the Rubbers/Games/Points
